

# AYMAN MUSALLI

## SOFTWARE ENGINEER

Makkah, Makkah Province, Saudi Arabia | [aymmusalli8@gmail.com](mailto:aymmusalli8@gmail.com) | +966535264226 | [LinkedIn](#)

### PROFILE

---

Undergraduate Software Engineering student seeking a summer internship in full-stack development. Proficient in Python, Java, and HTML/CSS with hands-on experience contributing to a Printing Management System, supporting system architecture, backend implementation, documentation, and UI/UX. Demonstrated leadership coordinating boarding logistics for approximately 3,000 pilgrims and contributing to automation and internal web tools to streamline volunteer workflows. Fast learner with strong project management, communication, and collaborative problem-solving skills.

### EXPERIENCE HISTORY

---

**Crowd Organizer & Operation Assistant, Ithraa** Jul 2023  
Makkah

- Organized boarding logistics for approximately 3,000 pilgrims traveling to Mina, coordinating timing and crowd flow to ensure safe, timely departures.
- Coordinated volunteer teams and transport providers, communicated operational plans, and maintained on-site order during high-volume movements.

**HR Team Member – Recruitment & Event Support,** Aug 2023 to Jun 2024  
**KFUPM Volunteer Work Unit**  
Dhahran

- Led volunteer recruitment by screening applicants, conducting interviews, and selecting candidates for major initiatives.
- Coordinated volunteer assignments and supported event organization to ensure operational readiness.

**Technical Team Member – Automation & Web Support,** Aug 2025 to Jun 2026  
**KFUPM Volunteer Work Unit**  
Dhahran

- Assisted in developing automation solutions and simple web pages (HTML/CSS) to support volunteer workflows and reduce manual coordination.
- Supported internal web pages for schedules and checklists, and provided on-site technical assistance during events.

### EDUCATION

---

**King Fahd University of Petroleum & Minerals** 2022 to 2027 (Expected)  
Bachelor of Science in Software Engineering – Undergraduate Student, Dhahran

- Focused on full-stack development and software design.
- Key project: Printing Management System – supported documentation, system architecture planning, UI/UX design, and backend implementation using Python, HTML, and CSS.
- Relevant coursework: Data Structures & Algorithms, Software Engineering, Databases, Web Development.
